How to update my log on information:

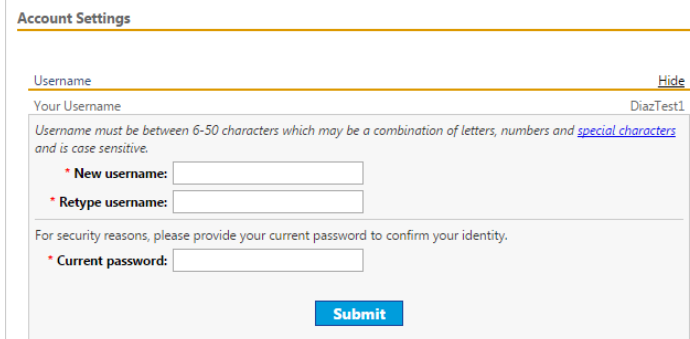

- If you would like to edit or update any of your account log on information, you may do so via the patient portal.
 - From the Home screen, hover over the SETTINGS tab and select Account Settings.

- From the Account Settings screen, you can change your username, password, security question/answer, your forgot password question/answer as well as un-enroll from the patient portal if desired.
- Click the Edit link to the right of the section that you wish to change.

- To change any of the above items, you will need to enter the new information 2 times to ensure accurate entry as well as your current password for security purposes.

- Click Submit within each section that you wish to change.
